PROFESSIONAL SKILLS

- Collaborated with group in class to analyze technical issues and found effective solution through critical thinking, excellent teamwork and communication
- Documented various documents working with my group such as Request for Proposal, Project Charter and Requirement Specifications as part of course work
- Designed Context Diagrams and UI models using draw.io (Similar to Visio)
- Designed a model for a Hi-Fidelity app in Figma as a part of a group project phase. More details can be found at https://sites.google.com/view/seng310-b03-p3-phase2/home.
- Programmed efficient algorithms in Java and Python using various innovative implementations as class work
- Debugged and developed various programs in Java that met specific requirements such as Graph Theory and Probability
- Familiar with Apache server, Flash, Selenium and various Adobe distributions (Photoshop, Dreamweaver etc.)

PROJECTS

Responsive website using Bootstrap and CSS   May 2017

- Designed a personal website displaying personal profile
- Implemented interactive animations providing a user-friendly experience
- The link to the website is: https://nppatel97.github.io/nppatel/

Recipe Finder Android Application using Android Studio   April 2017

- Designed an app displaying various recipes and other features. Code for the app can be found on my GitHub
- Developed the entire interface as a part of a group in the group project using Java and XML
- The app provides information for changing user Profile, finding recipes, planning group meals and more
- This was a Lo-Fidelity work to present the overall concept of the app based on the requirements provided
- App is not fully working and is partially broken since it was only for testing and evaluating purposes
- Re-designed the entire app by myself after the completion of the project as a free time project to explore Android Studio

EXPERIENCE

Customer service, Walmart, Victoria, BC, Canada (Sept 2015 – Mar 2016)

- Worked at Walmart as a cashier. Politely assisted customers with the checkout procedures
